**Subject:** [REDACTED] Cases

Hi Julie,

Upon reviewing the data that we have regarding the [REDACTED] Case it should be of note that this case has been continued several times and we have it documented being scheduled for trial last September and a number of times since.

Dan is the primary and custodial chemist and weighed an amount greater than 14 grams total. Della performed the GC/MS. Charles Salemi did not have anything to do with this case so it is unclear to me as to why he received a summons.

Dan is fully trained in GC/MS and can review the relevant GC/MS data in this case on the **very remote** chance that Della is not available. I strongly suggest that ADA O'Rourke reach out to Dan at 617-983-6630 regarding his potential testimony.

Thanks,  
Betsy
